PROJECT TESTING DOCUMENT

Implement Client Script & UI Policy (Incident)

> **Project:** ServiceNow Incident Management Optimization | **Phase:** 06 - Project Testing

1. Introduction

This phase checks whether the Client Script and UI Policy work correctly in the ServiceNow Incident form.

2. Test Cases

Test ID	Test Case	Expected Result	Status
TC-01	Open Incident Form	Form opens	**Pass**
TC-02	Leave Short Description empty	Error message appears	**Pass**
TC-03	Select Category as Hardware	Assignment Group becomes mandatory	**Pass**
TC-04	Fill all required fields	Incident is submitted	**Pass**

3. Testing Process

- Open the Incident form.
- Leave Short Description empty.
- Check if the warning message appears.
- Select Hardware as Category.
- Check whether Assignment Group becomes mandatory.
- Submit the form after filling all required fields.

4. Test Result

- Client Script validated user input correctly.
- UI Policy changed the field behavior correctly.
- The Incident form worked as expected.

5. Screenshots to Upload

- Validation error message
- Assignment Group marked as mandatory
- Successful incident submission
